General:

Oloko is a safe strategic online game for children between the ages of 6 and 12. Within the online world, the children move around anonymously, using personalised avatars (rabbits, dogs, horses or cats). They grow crops, till fields, raise animals, decorate their garden and trade. This way, the imagination of children is promoted in an entertaining way, their curiosity is satisfied and they gently discover the possibilities that the internet provides.

It is the goal of the game to learn the profession of a chef, farmer, gardener or baker. The children learn strategic behaviour by taking on various tasks and trading virtual goods among each other. Oloko additionally offers many small competitions that promote the creativity of the children.

To play Oloko, a standard off-the-shelf computer is required. Minimum configuration as well as recommended configuration are listed below. Speakers are not required, but they enhance the gaming experience, because Oloko contains many sound effects.

The application runs with Adobe® Flash® Player 10.2. It can be downloaded for free on the internet. JavaScript has to be installed and activated. Additionally, when using Internet Explorer, it is required that you activate ActiveX under „Internet Options“.

Basic Membership:

The Basic Membership is free. In order to obtain a Basic Membership, a successful registration and subsequent confirmation of the email address is required.

Gold Membership:

In addition to the Basic Membership, a Gold Membership is available for a monthly fee. This membership grants you ad-free access to all functions and exclusive content in Oloko. As Gold Members, children receive exclusive clothes and accessories for their avatars, a large garden, helpers and devices for quicker growing, the possibility to initiate trade and much more.
